RE: MYPLAFORK 160, MYPLAKNIFE 160, MYPLASPOON 150 compostable White and Black Unprinted Cutlery (maximum thickness of 3.4mm)

Dear Wilson:

This is to confirm that MYPLAFORK 160, MYPLAKNIFE 160, MYPLASPOON 150 compostable White and Black Unprinted Cutlery (maximum thickness of 3.4mm) are produced by BPI-approved manufacturers from BPI-certified materials. These products are authorized to carry the BPI Compostable Logo (shown on the right) because they meet all of the requirements of ASTM D6400 or ASTM D6868: they will disintegrate and biodegrade swiftly and safely in a professionally managed composting facility and not leave behind any non-compostable residues.

Should any municipalities have any questions, specifically questions about specific SKUs or item numbers, they can contact me directly by phone or email.

Sincerely,

A handwritten signature in black ink, appearing to read "Rhodes Yepsen".

Rhodes Yepsen
